

# A Cool Document

Franklin May

September 2, 2021

The quick brown fox jumped over the lazy dog, and other things I learned today.

1. We looked at using ssh with "X" Tunneling

```
ssh -X <username>@savage.nsm.iup.edu
```

This allowed for windowed graphics to be viewed on the remote machine.

2. I also used "evince" as a viewer to open the remote documents.

"This looks dorky in L<sup>A</sup>T<sub>E</sub>X !"

## Some stuff the language does

If you have some math:

$$\sum_{i=0}^{100} f(x_i) \approx \int_{\Omega} f(x) dx$$

Then typesetting is easy.
